Sysdig Agent for HPON 1. 2 Oct 2019. BMC Administrator for HPON 1. Version of Active Boot Disk v15.0.6 Full ISO.The Monad version of Idris should merge into the Monad version of GHC. That's what I was told by the author of Monad, Peter Hancock, who mentioned it in this video about Haskell. He's mostly comparing Haskell vs Idris but he mentions the issue with monad transformer. If you want to try yourself, just compile the source with the GHCi and you'll see how it works. I was looking for an article explaining why X monad is not required (but I can't find it. You found it already. Thanks for the confirmation. - SocratisMay 7 '13 at 18:47 1 I think "I was looking for a record which would explain what was wrong" is quite different from "you found it already". Also, the link from "the question" is just about conversion of records. - Damian ConwayMay 7 '13 at 19:06 @Damian I don't think there's much of a difference and it can be boiled down to 3ef4e8ef8d
